Exploration in Robotics Summer 2024

In collaboration with SnappyXO

www.snappyxo.com

Introduction to Mechanisms, Simple Electronics, and Microcontroller Programming

Each student will receive a SnappyXO Robotics Kit V2 to keep.

SAAWA Exploration in Robotics - Summer 2024

Students in **5-6th** grade will learn basic STEM concepts and the design process in this program. They will apply these skills to design, build and program robots using SnappyXO, a fun, educational robotics platform invented here on Long Island at Stony Brook University.

Dates: July 8th to July 19th
Location: Hicksville
Duration: 2 Weeks, M-F 10am-2pm

Program fee: $450 (+$32.02 Eventbrite fee) per student
