10th SAAWA ESSAY WRITING CONTEST 2024

For all Middle and High School students of the Tristate area

ESSAY PROMPT

How will ChatGPT

(Generative Pre-training transformer)

change schools in the 2020s?

Description: Is the new chatbot the end of education as we know it? Or a useful new tool for learning? Please weigh in. We invite students to tell us how they think schools should respond to ChatGPT. Is chatbot mighty, if at times unreliable tool. Will ChatGPA rob students of their motivation, creativity and critical thinking OR lead to widespread cheating? On the other side, you can argue that A.I. is the future and schools should embrace it rather than restrict it.

500-word count maximum

[PLEASE CLICK HERE TO ACCESS THE APPLICATION FORM](#)

Deadline to submit the essay is January 15th, 2024 by 5pm.

Awards

1st Place - \$250

2nd Place - \$150

3rd Place - \$100

Multiple Honorable mentions

Top 10 winners will be invited for a panel discussion about their opinion
