**SAAWA Science Center
Annual Mini-Research Grant Award 2022-23 “In the
field of Earth and Environmental Science”**

We at SAAWA invite applications from all Middle (7-8) and High School (9-10) students to our Annual Mini-Research Grant Award 2022-23.

Funding is intended to offset the cost of materials and computer software expenses pertaining to a new research project in the “Environmental field**” starting in September 2022. The amount of the award is \$200.**

The applicants will be considered if they meet the following requirements:

- 1. Must be perusing a new Environmental based research project in Fall 22 and have a Science Research Teacher as Mentor.**
- 2. Must participate in the SAAWA science competition.**
- 3. Topics of the research project must be in Earth and Environmental Science.**

Although you may select any topic of your choice in the environmental field, here are a few suggestions:

- Water Management**
- Deforestation**
- Impact of Climate Change**
- Renewable Energy**
- Food Security**
- Air Pollution and Noise Pollution and your Health**

An abstract of up to 250 words must be submitted as part of the application.

**The deadline for submission is October 15th, 2022.
Awardees will be informed by November 1, 2022.**

The online application opens on October 1, 2022.
